

Fall-Protection

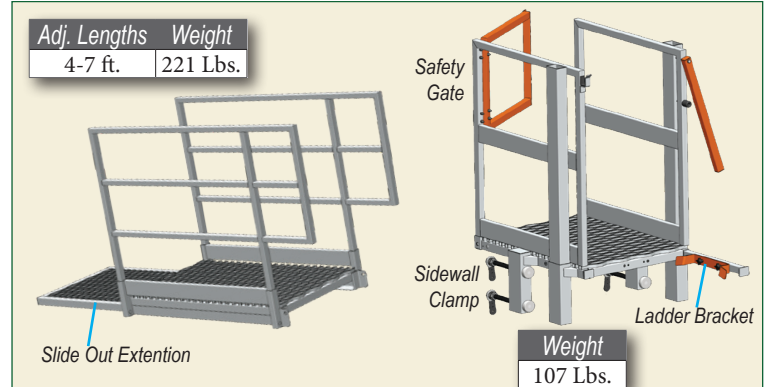

Shoring Platform, Telescoping Walkway, & Davit Mast

Access/Egress Shoring Platform:

Code: BTS6928

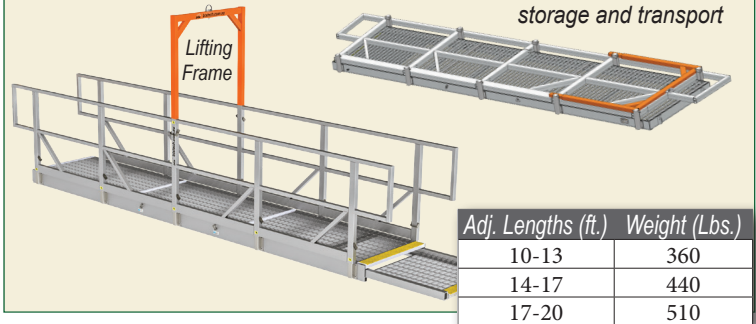

OSHA requires walkways and guardrails when crossing over excavations six feet or deeper. The BTRENCHSAFE® Shoring Platform and Telescoping Walkway provides a safe means of access and egress to and from the excavation.

Compatible Telescoping Walkway

Available in three adjustable lengths

Collapsible for easy storage and transport

Adjustable Guardrail:

Code: BTS6000

The BTRENCHSAFE® Aluminum Adjustable Clamping Guardrail prevents workers from falling into open excavations or trenches. Guardrails comes in six lengths, and two sizes of adjustable sidewall clamps.

Lengths (ft.)	Weight (Lbs.)
4	25
6½	30
8	33
10	44
11½	46
13	48
